01. You assume that you are requested to write an article about

“The Heart – our Life Centre”. Introduction is given, Continue

the given ideas and complete.

The Heart – our Life Centre

Humans and animals have a heart and a circulatory system. However, unicellular animals do not require a heart or a circulatory system. Humans have a well developed and efficient circulatory system which consists of blood, blood vessels [veins, arteries, capillaries] and a thick muscular organ called the heart.

Blood is a fluid that flows in the blood vessels. It is the medium of transport
